

# Likely Mountain Ride

From Likely, follow Highway 395 south about 5 1/2 miles and turn right onto the old highway, which is at the bottom of a hill. About 300 feet down this road is a nice parking area on the left. To begin your ride, you can go either south along the old highway, or north on the livestock driveway, adjacent to the highway. The southern access turns off of the old highway in 2 miles and goes west through a green metal gate up a hill. The northern access starts at the livestock driveway and goes north for approximately 1/2 a mile, then turns west on the Likely Mountain Road, uphill - it's a pull!
